

## INSIGHTS Lecture Series

### COVID-19: The Way Forward

Our top scientists reflect on the global pandemic—past, present and future

This March marks one year since the outbreak of the COVID-19 pandemic—and all of us have been affected. We've been working from home, wearing masks and watching our children struggle with remote learning. And some of us and our loved ones may have contracted the disease.

Join our digital event!

Tuesday,

**March 23, 2021**

1:00pm – 2:00pm PST

Sanford Burnham Prebys scientists are part of the solution—fiercely pursuing treatments to minimize the impact of this virus and discover new therapies to prevent and overcome pandemics of tomorrow. Join our esteemed panel of experts to learn about research revelations from the past year, current updates, and strategies for the path forward.

#### We will cover:

- Why people respond differently to the virus
- The potential long-term health impacts of COVID-19
- The safety of new vaccines and how long protection will last
- Current research strategies to prepare for future pandemics
- How we can help the sickest among us
- How scientists go from drug screening to therapeutics, and how we can bring life-saving treatments to patients quickly

Join us and learn how we can bring life-saving treatments to protect our health.

A Q&A session will follow the presentation and will give you an opportunity to personally connect with our scientists and have your questions answered.

#### Speakers:

**Anne Bang, Ph.D.**

Director, Cell Biology  
Conrad Prebys Center for Chemical Genomics  
Sanford Burnham Prebys Medical Discovery Institute

**Sumit Chanda, Ph.D.**

Director and Professor, Immunity and Pathogenesis Program  
Infectious and Inflammatory Diseases Center  
Sanford Burnham Prebys Medical Discovery Institute

**Evan Snyder, M.D., Ph.D.**

Professor, Human Genetics Program  
Director, Center for Stem Cells and Regenerative Medicine  
Sanford Children's Health Research Center  
Sanford Burnham Prebys Medical Discovery Institute

**Carl F. Ware, Ph.D.**

Director, Infectious and Inflammatory Diseases Center  
Sanford Burnham Prebys Medical Discovery Institute  
Professor  
Immunity and Pathogenesis Program  
Director, Laboratory of Molecular Immunology
