# PANCREATIC CANCER: Research, Clinical and Patient Perspectives – Updates And Breakthroughs

Pancreatic cancer is one of the world's most challenging cancers and is projected to become the second leading cause of cancer-related death in the United States in the next decade.

With a five-year survival rate of just 9 percent, cutting-edge scientific research is more important than ever in leading to cures and pioneering treatments for patients. Scientists, doctors and patients come together for a panel discussion on the latest discoveries in pancreatic cancer.

**MODERATOR**  
**Lola Rahib, Ph.D.**  
Lead Scientist,  
Pancreas Cancer  
Cancer Commons

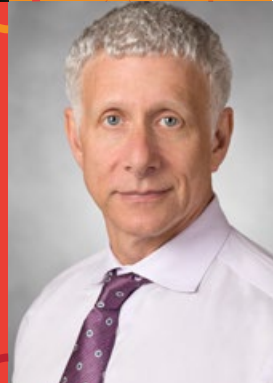

Join us as we explore the connections between the research and clinical perspectives and the impact on the patient as we host an exciting, unique speaker series: SBP Insights. A Q&A session is part of the event and gives you an opportunity to connect with our panelists.

## A 360-DEGREE PERSPECTIVE

**SCIENTIST**  
**Cosimo Comisso, Ph.D.**  
Assistant Professor  
Tumor Initiation and  
Maintenance Program  
NCI-Designated  
Cancer Center  
Sanford Burnham Prebys  
Medical Discovery  
Institute

**DOCTOR**  
**Andrew M. Lowy, M.D.**  
Professor of Surgery  
Chief, Division of  
Surgical Oncology  
Moores Cancer Center  
UC San Diego Health

**PATIENT**  
**Russell Gold**  
Pancreatic Cancer  
Survivor  
Advocacy Chair for the  
Pancreatic Cancer  
Action Network, San  
Diego Affiliate

**THURSDAY**  
**NOVEMBER 21, 2019**

5:30–7:00 PM Doors open at 5:00pm

Building 12,  
Sanford Burnham Prebys Auditorium  
10905 Road to the Cure  
La Jolla, CA 92121
