

2018 RARE DISEASE DAY SYMPOSIUM

Sponsorship Opportunities

In 2018, in partnership with **CDG CARE** and **NGLY1.org**, the ninth annual **Sanford Burnham Prebys (SBP) Rare Disease Day Symposium** will focus on Congenital Disorders of Glycosylation and De-glycosylation.

This joint scientific and family symposium will be held **February 23-25, 2018** at The Dana on Mission Bay in San Diego, CA, with the scientific session primarily on **February 23-24**, and the family session on **February 25**. All are encouraged to attend both sessions.

Scientific topics will include:

1. PMM2-CDG: Overview, Models and Therapies
2. Other Glycosylation Disorders: Models and Therapies
3. NGLY1: A Disorder of Glycosylation

Family topics will include:

1. Education on the science behind this class of disorders
2. Resources available for patients and families
3. Interventional and therapeutic approaches

Scientific and family meetings will be bridged by **three interactive events**:

A **poster session** on Friday evening where junior investigators and postdocs present emerging science alongside patient and advocate presenters.

SBP's innovative **doctor-is-In session**, where physicians and scientists meet with small groups of like-minded family members in a round-robin format, on Saturday afternoon.

Family/Scientist Networking time on Saturday evening.

SBP, CDG CARE, and NGLY1.org are excited to bring this program to the CDG community, but to make it happen, **we need your help**.

Research Knowledge

Learn from scientists, clinicians and advocates

Family Support

Network with impacted patients and families

One-on-One Access to Experts

Speak with CDG/ NGLY1 experts about the latest developments in the field

2018 Sponsorship Opportunities

For the past eight years, SBP has been able to present its Rare Disease Day Symposium due to the generous contributions of organizations and people like you. If you support the 2018 meeting, **100% of the funds you donate will go directly to the event.** Because SBP is a non-profit, 501(c)3 organization, your donation is tax-deductible. Support the fight against Congenital Disorders of Glycosylation and De-glycosylation by donating today. Your gift, of any size, **will make a real and lasting impact to those suffering from rare genetic diseases.**

Benefit	Rare \$10,000+	Platinum \$5000	Gold \$3000	Bronze \$1500
Reserved admission to all symposium events (number of tickets provided).	Four	Two	One	One
Name/logo recognition on all print and electronic materials.	Premier	Prominent	Standard	Standard
Logo placement on the SBP event website and Eventbrite registration page with live link to your homepage.	X	X	X	X
Special verbal recognition at the symposium.	X	X		
Table space at the symposium to display signage and company information (brochures, marketing materials, etc.).	Full	Half	Quarter	
Opportunity to display company signage (company provided) next to the registration desk.	X	X		
Name/logo displayed on the PowerPoint between presentations.	X	X	X	X
Opportunity to address the audience at the symposium.	X			
Name/logo displayed on symposium name tags.	X
