

Breakthrough Discoveries

40+ years of pioneering research

Deep expertise in cancer, neuroscience, immunology and rare children's diseases

A world class NCI-designated Cancer Center

One of only 7 basic research centers in the U.S. (since 1981)

INNOVATIVE SCIENCE

Top 1.5% of research institutions worldwide based on citations per paper

240 peer-reviewed papers published in 2020

#6 in the nation for the Nature Index of nonprofit/non-government institutions in biomedical science

1,111 patents, 35 startups from Sanford Burnham Prebys innovations

TRAINING NEXT GENERATION SCIENTISTS

Our graduate school is recognized for customized curriculum and accelerated time-to-degree in less than 5 years

More than 350 postdocs, graduate students and interns mentored per year

Trainees pursue a wide-range of careers in biotech, academia and research

Discovering Better Together

Sanford Burnham Prebys is dedicated to understanding human disease and advancing discoveries to profoundly impact human health.

4 out of 5

people are directly connected to research.

STRATEGIC PARTNERSHIPS

Advancing our discoveries to the clinic

- BOEHRINGER INGELHEIM
- DAIICHI SANKYO
- GLAXOSMITHKLINE
- LILLY
- MAYO CLINIC
- WARF THERAPEUTICS
- C3 CANCER CENTERS COUNCIL
- SANFORD CONSORTIUM FOR REGENERATIVE MEDICINE
- NCI CHEMICAL BIOLOGY CONSORTIUM
- ALZHEIMER'S SAN DIEGO
- COLLABORATION4CURE

Developing Prototype Drugs

One of the most advanced nonprofit drug discovery centers in the world

Industry-trained personnel have a track record of discovering and developing novel therapeutics

60+ Drug discovery projects

Over \$100M of translational science grants in the last 5 years

10

Clinical trials underway

- CANCER
- IMMUNE THERAPY
- KIDNEY DISEASE
- CALCIFICATION

7

FDA-approved treatments and tests

- AGGRASTAT®
- EPOGEN®
- INTEGRILIN®
- STRENSIQ®
- TARGETIN®
- VENCLEXTA®
- PSA TEST
